Material Features

Fabric

- Made from UV stabilized high density polyethylene fabric that prevents fading from the sun
- Raschel-knitted to prevent fraying and shades 34' and larger receive Kevlar® reinforced corners
- Blocks up to 98% of harmful UV rays, depending upon color choice
- Fabric breathes allowing hot air to rise and escape
- Available fabric to meet California State Fire Marshal requirements, NFPA 701, and ASTM E84

Frames

- Engineered to withstand wind speeds up to 150 mph with fabric removed
- Structural tubing complies with ASTM standards
- Finished product includes 6 to 8 mils of combined primer and powder coat — all backed by 5,000 hours of testing per ASTM Method B117

Glide Elbow™

Our Glide Elbow™ quick release mechanism allows for easy installation and removal of your fabric — in the case of a fabric refresh or inclement weather. All you need is a wrench or cordless drill (with the right sized socket). What's more, metal-on-metal wear is minimized with our fabric hook connection. Our Glide Elbow™ is backed by a [1-year limited warranty](#).
